

Laboratory SX Plant 25

SX Kinetics manufactured this laboratory solvent extraction pilot plant for a copper SX project in Chile.

Project: sxk-158
Client: Equilab Chile
Location: Chile
Stages: 3
Capacity: 150 mL/min (org + Aq)
Recycle: Option for organic or aqueous

Items Provided:

- Borosilicate glass mixers, settlers, and aqueous over flow weirs
- Organic reservoir manufactured from borosilicate glass
- High efficiency curved blade SX impellers with titanium shafts
- Stainless steel support frame with vibration adsorption clamps
- Interchangeable tubing for easy configuration to any circuit design
- Peristaltic metering feed pumps with spare parts and spare tubing
- Completely assembled and tested prior to shipment
